

AutoVue™

OFFICE

AutoVue Office delivers native document viewing, as well as versatile document review and annotation capabilities for Office, PDF, and graphic document types. Users can view, print, review and collaborate on hundreds of electronic documents, without requiring the authoring applications that were used to create them.

Deliver the foundation for a flexible and secure all-digital document sharing, review and approval platform and connect people and information across geographic boundaries and business practices.

WHY IS AUTOVUE RIGHT FOR YOU?

- **Provide Reliable Access to Documents with Native Document Viewing**

Access Office, PDF and graphic document types without undergoing costly and cumbersome document conversions to PDF or TIFF. Since file conversion is not required, AutoVue Office eliminates the unwieldy task of creating and managing a double set of data, i.e. the original document and the converted/neutral files. The cost and complexity of maintaining multiple client-side viewers and server-side conversion systems is eliminated. Storage costs are also kept to a minimum as PDF documents are not being emailed around to everyone for review.

- **Standardize the Document Review Process and Eliminate Paper**

Create an efficient electronic document review process. With AutoVue Office, users can digitally annotate and comment on documents, such as raster, word processing, spreadsheets, PDF and VISIO, without compromising the original documents' integrity. By doing so, AutoVue Office eliminates the need for inefficient paper-based reviews, and cuts down on paper and document delivery costs.

- **Perform Simultaneous Multi-Party Real Time Collaboration***

Allow extended global teams to communicate as if they were in the same room. Simultaneously review and annotate documents, and resolve issues in real-time with AutoVue Office. AutoVue's built in real-time collaboration capabilities are available to customers at no additional cost.

- **Protect Valuable Intellectual Property**

With AutoVue Web Edition, an image of the document is streamed to desktops for viewing; original documents never leave the server, and no local temp file or local cache file of any kind is created in the process. Sensitive information and valuable intellectual property remain protected at all times.

VIEW, REVIEW, AND COLLABORATE MORE EFFICIENTLY AND SECURELY ON OFFICE, PDF AND GRAPHIC DOCUMENTS

AutoVue Office is a cost-effective document viewing and annotation solution for organizations in the following industries:

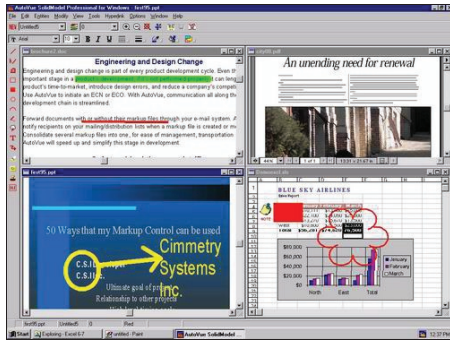

- Legal
- Pharmaceutical
- Insurance
- Financial Services
- Government

* AutoVue Web Edition only

KEY FEATURES AND CAPABILITIES

View Office, PDF and Graphic Document Types

Open, view and annotate a wide array of Office, PDF and graphic documents, including word processor, spreadsheets, Visio, PDF, TIFF, etc without requiring the authoring applications. Visit our website at www.cimmetry.com for a complete list of supported formats.

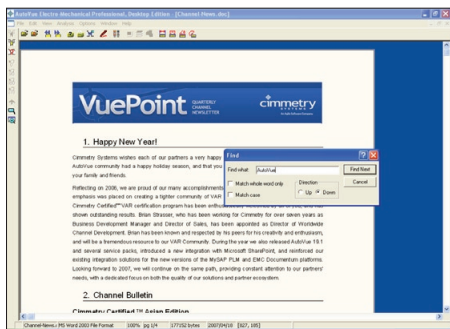

Easily Navigate Documents

AutoVue delivers three levels of zoom; Bird's Eye view, Magnifying Window, and Magnifying glass, which facilitate the navigation of files, and allow users to quickly locate the desired area on a document.

Perform Text Search

Quickly find the information you need with AutoVue Office's comprehensive text search capabilities. AutoVue Office instantly lists and highlights the exact position of every occurrence of the search term within a document.

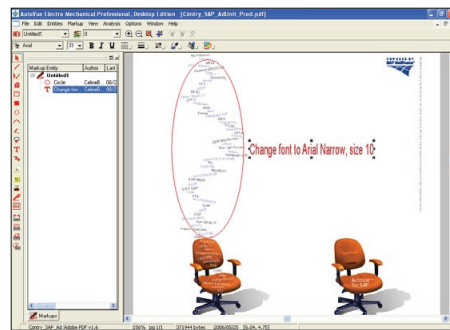

Easily Manipulate Files

Zoom, pan, rotate, flip, enhance images and easily interrogate documents.

Annotations and Comments

Make it easy to manage and track comments and feedback from all reviewers with AutoVue annotation entities. Add text, clouds, sticky notes and hyperlinks to documents. Click here for a complete list of markup entities.

Add Headers, Footers, Stamps and Watermarks

Easily add headers, footers, stamps and watermarks to your documents.

Advanced Printing

Save time by automating the printing process, batch print files, customize print settings and save printing configurations.

Convert Documents

For those organizations that need to convert documents for regulatory compliance, AutoVue offers the possibility to convert images and Office documents to TIFF, PDF or several other neutral file formats.

Leverage Existing IT Infrastructure with Easy Integration

AutoVue Office can be integrated into existing Document Management, Product Lifecycle Management or Enterprise Resource Planning systems, providing a comprehensive enterprise visualization platform that makes original documents available to the entire organization and supply chain in a secure and controlled manner, wherever they may reside.

In an integrated environment, annotations can be saved back into the file repositories of enterprise systems, maintaining document control.

Visit our website at www.cimmetry.com to learn more about AutoVue's integration capabilities.
